Divesting Pension Funds

from Fossil Fuels

Tuesday February 11th 7.00 for 7.30 pm
Exeter Community Centre

Pension funds continue to invest in companies that explore, produce and distribute fossil fuels. Most of these fuels must stay in the ground if we are to avert even worse climate chaos. If we want to avoid our pensions making life worse for our loved ones, how can we most effectively work to end this investment?

This open meeting will explore the arguments for divesting, what successful campaigns have done, how we can all get involved with the campaign to get the Devon Local Government Pension Fund divested. There'll be resources to take away.

Refreshments. All welcome. 01647 24789
