Devon**

COMMUNITY WEALTH & SPENDING FOR SOCIAL VALUE

After several years of collaborative conversations under the Devon New Economy Initiative, a new group - New Prosperity Devon - will support local initiatives, research, consultancy and events that aim to gear development towards a prosperous Devon for all. NPД draws on thinking about the new economy, climate-proofing programmes, participatory planning and more.

We want to spark initiatives and partnerships that provide for both people and environment - and tell stories of what's possible when that happens.

"...a good community, in other words,
is a good local economy."
(Wendell Berry)
